

Rockville Nursery School and Kindergarten *Enrichment Program*

**For Pre-K (4-5 year-old) students
Fall 2019-Spring 2020**

Dear Parents,

We are delighted to offer our exciting enrichment program here at RNS&K for this school year. This program sparks a variety of new interests:

- **Books and Cooks***: Students will cook a variety of goodies that tie into stories from some of our favorite children's authors such as Eric Carle, Leo Lionni, and Tomi De Paola
- **Hands on Science Exploration**: Children will partake in different scientific experiments such as learning about water pressure, shapes and strengths, electricity, germs and chemical reactions.
- **Traveling Around the World**: Discuss different countries such as China, Brazil, and Mexico and create projects, taste food, play cultural games from those regions
- **Art**: Children will learn and recreate art by famous artists such as Picasso, Monet, Kandinsky, and Matisse. They will use similar materials and technique.
- **Sports & Games**: Play new games and learn the importance of good sportsmanship.

**We will accommodate all students with food or material allergies.*

Classes

- Will meet on Tuesday and Thursday from 1:55-2:55pm
- Will explore areas beyond the scope of the Pre-K curriculum
- Provide an opportunity for personal discovery

And most important... fun, fun, and more fun!

We look forward to having you join us for an exciting new year of exploration and adventure!

Best,
Sarah Schmid
